Introduction

The *Report Card on Ontario's Elementary Schools 2017* (hereafter, *Report Card*) collects a variety of relevant, objective indicators of school performance into one, easily accessible public document so that anyone can analyze and compare the performance of individual schools. By doing so, the *Report Card* assists parents when they choose a school for their children and encourages and assists all those seeking to improve their schools.

The Report Card helps parents choose

Where parents can choose among several schools for their children, the *Report Card* provides a valuable tool for making a decision. Because it makes comparisons easy, it alerts parents to those nearby schools that appear to have more effective academic programs. Parents can also determine whether schools of interest are improving over time. By first studying the *Report Card*, parents will be better prepared to ask relevant questions when they visit schools under consideration and speak with the staff.

Of course, the choice of a school should not be made solely on the basis of a single source of information. Web sites maintained by [Ontario's Education Quality and Accountability Office \(EQAO\)](#),¹ the provincial ministry of education, and local school boards may also provide useful information.² Parents who already have a child enrolled at the school provide another point of view.

Naturally, a sound academic program should be complemented by effective programs in areas of school activity not measured by the *Report Card*. Nevertheless, the *Report Card* provides a detailed

picture of each school that is not easily available elsewhere.

The Report Card facilitates school improvement

The act of publicly rating and ranking schools attracts attention, and this can provide motivation. Schools that perform well or show consistent improvement are applauded. Poorly performing schools generate concern, as do those whose performance is deteriorating. This inevitable attention provides an incentive for all those connected with a school to focus on student results.

However, the *Report Card* offers more than just incentive. It includes a variety of indicators, each of which reports results for an aspect of school performance that may be improved. School administrators who are dedicated to their students' academic success accept the *Report Card* as another source of opportunities for improvement.

Some schools do better than others

To improve a school, one must believe that improvement is achievable. This *Report Card*, like other report cards from the Fraser Institute, provides evidence about what can be accomplished. It demonstrates clearly that, even when we take into account factors such as the students' family income—which some believe dictate the degree of academic success that students can enjoy in school—some schools do better than others. This finding confirms the results of research carried out in other countries.³ Indeed, it will come as no great surprise to experienced parents and educators that the data consistently suggest that what goes on in the schools makes

a difference to academic results and that some schools make a greater difference than others.

Comparisons are at the heart of the improvement process

By comparing a school's latest results with those of earlier years, we can see if the school is improving. By comparing a school's results with those of neighbouring schools or schools having similar school and student characteristics, we can identify more successful schools and learn from them. Reference to overall provincial results places an individual school's level of achievement in a broader context.

There is great benefit in identifying schools that are particularly effective. By studying the techniques

used in schools where students are successful, less effective schools may find ways to improve.

Comparisons are at the heart of improvement: making comparisons among schools is made simpler and more meaningful by the *Report Card's* indicators, ratings, and rankings.

You can contribute to the development of the *Report Card*

The *Report Card* program benefits from the input of interested parties. We welcome your suggestions, comments, and criticisms. Please contact peter.cowley@fraserinstitute.org.

Key academic indicators of school performance

The foundation of the *Report Card* is an overall rating of each school's academic performance. We base our *Overall rating out of 10* on the school's performance on nine indicators, all of which are derived from province-wide tests of reading, writing, and mathematics skills that are developed and managed by the province's Education Quality and Accountability Office (EQAO).⁴

- (1) average level of achievement on the grade-3 EQAO assessment in reading;
- (2) average level of achievement on the grade-3 EQAO assessment in writing;
- (3) average level of achievement on the grade-3 EQAO assessment in mathematics;
- (4) average level of achievement on the grade-6 EQAO assessment in reading;
- (5) average level of achievement on the grade-6 EQAO assessment in writing;
- (6) average level of achievement on the grade-6 EQAO assessment in mathematics;
- (7) the difference between male and female students in their average levels of achievement on the EQAO assessment in grade-6 reading;
- (8) the difference between male and female students in their average levels of achievement on the EQAO assessment in grade-6 mathematics;
- (9) the percentage of EQAO assessments that did not meet the provincial standard.

We have selected this set of indicators because they provide systematic insight into a school's performance. Because they are based on annually generated data, we can assess not only each school's performance in a year but also its improvement or deterioration over time.

Indicators of effective teaching

Average levels of achievement on EQAO's assessments

These indicators—in the tables, *Grade 3 avg. level* and *Grade 6 avg. level*—show the average level of proficiency achieved by the school's students on the uniform EQAO assessments in reading, writing, and mathematics at the grade-3 and grade-6 levels. The EQAO converts the raw score on each test into a level of achievement from 1 to 4. Achievement at Levels 1 and 2 suggest that the student has not yet met the provincial standard. Level 3 is considered the provincial standard and Level 4 represents achievement well above the provincial standard. Achievement at Level 3 or 4 suggests that students are well prepared for work at the next grade.

In order to calculate the average level achieved by the students at a school on any given test, a numerical value was given to each level of achievement. Thus, Level 1 was given a value of 1 for purposes of determining the average; Level 2, a value of 2; Level 3, a value of 3; and Level 4, a value of 4. A value of 0 was given in those cases where a student completed the test but did not demonstrate sufficient understanding to be assigned achievement Level 1.

Fundamental to the mission of elementary schools is teaching students sound basic skills in reading, writ-

ing, and mathematics. Basic literacy and numeracy are essential building blocks for life-long learning. The tests upon which the *Report Card* is based assess students on these dimensions. Differences among students in abilities, motivation, and work habits will inevitably have some impact upon the final results. There are, however, recognizable differences from school to school within a district in the average results on the EQAO's tests. There is also variation within schools in the results obtained in different subject areas and at different grades. Such differences in outcomes cannot be wholly explained by the individual and family characteristics of the school's students. It seems reasonable, therefore, to include the average test marks in these three critical subject areas as indicators of effective teaching.

Percentage of EQAO tests below standard

For each school, this indicator—in the tables *Tests below standard (%)*—provides the rate of failure to meet the provincial standard on the EQAO's tests. It was derived by dividing the total number of all the above tests that provided enough information to enable the calculation of a score but that did not meet the provincial standard, by the total number of such tests written by the students at the school.

Since reading, writing, and mathematics are critical to students' further intellectual and personal development, students should, at the minimum, demonstrate that they meet the accepted standard of performance for their grade in these subject areas. Schools have the responsibility of ensuring that their students are adequately prepared to do so.

How well do the teachers take student differences into account? The Gender gap indicators

The Gender gap indicators—in the tables *Gender gap (level)*—use the grade-6 results of the EQAO's assessments to determine how successful the school has been in narrowing the achievement gap between male and female students in reading and mathematics.⁵ These

indicators are determined, for each subject area, by calculating the absolute value of the difference between male and female students in their average level of achievement. The difference is reported along with the more successful sex in the detailed tables.

Undoubtedly, some personal and family characteristics, left unmitigated, can have a deleterious effect on a student's academic development. The *Report Card* provides evidence that successful teachers overcome such impediments. By comparing the results of male and female students in two subject areas—reading and mathematics—in which one group or the other may have enjoyed a historical advantage, we are able to gauge the extent to which schools provide effective teaching to all of their students.

In general, how is the school doing academically compared to other schools in the Report Card? The Overall rating out of 10

While each of the indicators is important, it is almost always the case that any school does better on some indicators than on others. So, just as a teacher must make a decision about a student's overall performance, we need an overall indicator of school performance—in the tables *Overall rating out of 10*. Just as teachers combine test scores, homework, and class participation to rate a student, we have combined all the indicators to produce an overall rating. The overall rating of school performance answers the question, "In general, how is the school doing academically, compared to other schools in the *Report Card*?"

To derive this rating, the results for each of the nine indicators, for each school year, were first standardized. Standardization is a statistical procedure whereby sets of raw data with different characteristics are converted into sets of values sharing certain statistical properties. Standardized values can readily be combined and compared. The standardized data were then weighted and combined to produce an overall standardized score. Finally, this score was converted into an overall rating out of 10. It is from this *Overall*

rating out of 10 that the school's provincial rank is determined.

Note that the Overall rating out of 10, based as it is on standardized scores, is a relative rating. That is, it measures each school's performance compared to all the other schools in the *Report Card*. Thus, even though a school receives an overall rating of 10, it is very likely that it can still improve. An overall rating of zero means that on average, on the report card's indicators, no school in the *Report Card* performed more poorly. However, it does not mean that the lowest performing school has accomplished nothing for

its students.

Further, because it is a relative measure, in order for a school to show improvement in its Overall rating out of 10, it must improve faster than the average. If it improves, but at a rate lower than the average, it will show a decline in its rating.

For schools where there were fewer than 10 test results for boys or for girls, no values for the *Gender gap* indicators can be provided. In these cases the *Overall rating out of 10* is derived using the remaining indicators. (See Appendix 1 for an explanation of the calculation of the *Overall rating out of 10*.)

Other indicators of school performance

The *Report Card* includes other indicators that, while they are not used to derive the *Overall rating out of 10*, add more information on the school's effectiveness.

The *Tests not written* indicator

Schools that administer the EQAO's assessments are expected to ensure that all their students write the tests. Higher participation rates provide the benefit of objective assessment of learning to more students and parents. They also provide a more accurate reflection of the level of achievement at the school. A reader can have more confidence that the test results are a true reflection of the school's average achievement level if all, or almost all, of its students write the tests.

The indicator of tests not written—in the tables *Tests not written (%)*—was determined by first summing, for each of the six test sittings, the total number of students for whom no test data were submitted or who were exempt from testing. The six sums were then totaled. This result was then divided by the total number of tests that could have been completed if all students had fully participated in all of the tests that were administered at the school.

The principal of a school at which a relatively

large percentage of students did not complete the tests should be able to provide good reasons for the students' failure to do so and a well-developed plan to increase participation in future test sittings.

The *Trend* indicator

No ranking was possible in the 2014-2015 school year as the result of job action by the Elementary Teachers' Federation of Ontario. For this reason, no improvement analysis is currently possible.

The student characteristics indicators

For each school, the *Report Card* notes the percentage of its students who are enrolled in ESL programs or who have certain identified special needs. As was noted in the Introduction, it is sometimes useful to compare a school's results to those of similar schools. These two indicators can be used to identify schools with similar student body characteristics. A variety of comparisons between schools can be made on the Fraser Institute's school rankings website, <www.compareschoolrankings.org>

Notes

- 1 The Education Quality and Accountability Office (EQAO) is an arm's-length agency of the provincial government. It provides parents, teachers, and the general public with information about student achievement. For more information, see the EQAO's web site at <<http://www.eqao.com/>>.
- 2 See, for instance, the EQAO's web site at <<http://www.eqao.com/>>, the Ministry of Education's web site at <<http://www.edu.gov.on.ca>>, or the web site of the Toronto Catholic District School Board at <<http://www.tcdsb.org/>>.
- 3 See, for instance, Michael Rutter et al., *Fifteen Thousand Hours: Secondary Schools and Their Effects on Children* (Cambridge, MA: Harvard University Press, 1979) and Peter Mortimore et al., *School Matters: The Junior Years* (Wells, Somerset: Open Books, 1988).
- 4 The EQAO's test results, student enrollment data, and school information used or reported in this publication were provided by the Ontario Ministry of Education. The results or views expressed in this publication are those of the authors and are not those of the Ontario Ministry of Education.
- 5 For a discussion of gender-based differentials in academic achievement, see Peter Cowley and Stephen Easton, *Boys, Girls, and Grades: Academic Gender Balance in British Columbia's Secondary Schools*. Public Policy Sources 22 (Vancouver, BC: The Fraser Institute, 1999).

Detailed school reports

How to read these tables

Use the sample table and the explanation of each line below to help you interpret the detailed results for individual schools. Families choosing a school for their children should seek to confirm the *Report Card*'s findings by visiting the school and interviewing teachers, school administrators, and other parents. For an easily used school comparison tool, please go to <http://www.compareschoolrankings.org/>. More information regarding test results at individual schools can be found on the Education Quality and Accountability Office (EQAO) web site at <http://www.eqao.com> and on the web sites of local school districts and schools. Of course, a sound academic program should be complemented

by effective programs in areas of school activity not measured by the *Report Card*.

Note

Private schools are not required to administer the EQAO tests. Since the *Report Card* is based on results achieved on these tests, only a few private schools that chose to administer the EQAO tests could be included.

IMPORTANT: In order to get the most from the Report Card, readers should consult the complete table of results for each school of interest. By considering several years of results—rather than just a school's rank in the most recent year—readers can get a better idea of how the school is likely to perform in the future.

A – GEOGRAPHICAL AREA							
B – School [Affiliation] Location		Gr 6 enrollment: 33					
C – ESL (%): 0.0		Special needs (%): 33.3					
D – Actual rating vs predicted based on parents' avg. inc. of \$ n/a: n/a		2016-17		Last 5 Years		Rank: 567/3064 n/a	
Academic Performance		2013	2014	2015	2016	2017	Trend
E – Gr 3 avg. level:	Reading	2.6	2.8	n/a	2.8	3.1	n/a
F –	Writing	2.8	2.9	n/a	2.8	2.9	n/a
G –	Math	2.7	3.0	n/a	2.9	3.0	n/a
H – Gr 6 avg. level:	Reading	3.1	2.9	n/a	3.0	3.1	n/a
I –	Writing	3.0	2.9	n/a	2.9	3.1	n/a
J –	Math	3.0	2.7	n/a	2.5	3.0	n/a
K – Gender gap (level):	Reading	F 0.2	F 0.1	n/a	F 0.2	F 0.1	n/a
L –	Math	F 0.8	M 0.2	n/a	M 0.2	F 0.4	n/a
M – Tests below standard (%)		23.5	22.2	n/a	25.3	15.3	n/a
N – Tests not written (%)		0.0	1.3	n/a	1.8	1.6	n/a
O – Overall rating out of 10		5.9	6.9	n/a	6.4	7.5	n/a

A — Geographical area The schools are grouped into geographical areas. To find a school's results, find its location in the "List of cities and geographical areas" and note its geographical area. Find the geographical area in the "Index of geographical areas" and note the page on which its results begin.

Within each geographical area, the schools are listed in alphabetical order.

B (left) — School name, affiliation, and city The school name, its affiliation—public, Catholic, or private—and the city in which the school is located.

B (right) — Grade-6 enrollment The number of students eligible to participate in the grade-6 tests. Indicator results for schools with small enrollments tend to be more variable than do those for larger schools. For this reason it is particularly important to consider previous results as well as those for the most recent year.

C — ESL (%); Special needs (%) These statistics report the percentage of the students for whom English is a second-language and the percentage of students with special needs. When you want to compare academic results, these statistics can be used to find other schools where the student body has similar characteristics.

D (left) — Actual rating vs predicted based on parents' average employment income This statistic is not available this year.

D (right) — Rank The school's overall academic rank in the province for 2016/2017. The rankings show how the school has done academically compared to the other schools in the *Report Card*. A high ranking over several years indicates consistently strong results at the school.

E to J — Gr 3 avg score and Gr 6 avg score The average level achieved by the students on the grade-3 and grade-6 EQAO tests. The EQAO assigns a level of achievement to each completed test. Achievement at Levels 1 and 2 suggest that the student has not yet met the provincial standard. Level 3 is considered the provincial standard and Level 4 represents achievement well above the provincial standard. Thus, achievement at Level 3 or 4 suggests that students are well-prepared for work at the next grade. In order to calculate the average level, a numerical value was given to each level of achievement. Thus, Level 1 was given a value of 1 for purposes of determining the average; Level 2, a value of 2; Level 3, a value of 3; and Level 4, a value of 4. In those cases where a student completed the test but did not demonstrate sufficient understanding to be

assigned achievement Level 1, the test was given a value of 0.

K & L — Gr 6 gender gap The difference (in average level of achievement) between girls and boys in the grade-6 reading and mathematics tests. Where the difference favours the girls, the value is preceded by an F. Where boys are favoured, the value is preceded by an M. An E means that there is no difference between the girls and the boys on this measure. Smaller differences indicate that the school is doing a good job for all its students.

M — Tests below standard The percentage of all the completed tests written by students at the school that were judged to be below Level 3. A low percentage of Tests below standard (%) indicates that the school is successful in ensuring that most of its students are meeting or exceeding the provincial standard of performance for the grade.

N — Tests not written (%) The percentage of the tests that could have been completed by the school's students but which were not assigned an overall score. The indicator takes into account tests not written by students for any reason.

Schools that administer these tests are expected to ensure that all their students participate. For this reason, you should take note of the *Tests not written* percentage when you consider each school's results in the *Report Card*. The principal of a school with a high *Tests not written* percentage should be able to provide good reasons for the students' failure to complete the tests.

O — Overall rating out of 10 *The Overall rating out of 10* takes into account the nine indicators described in E through M above to answer the question, "In general, how is the school doing academically compared to other schools in the *Report Card*?"

P — Trends As the result of a job action by the Elementary Teachers' Federation of Ontario, no grade 3 or grade 6 provincewide tests were administered in the public schools during the 2014/2015 school year.

Since the results from these tests are used in

the calculation of five-year trends, no improvement analysis is currently available.

Other notes

Note 1

Not all the province's elementary schools are included in the tables or the ranking. In some school districts that operate middle schools or junior high schools, the elementary schools may not enroll students in grade 6. Since the *Report Card* is based on the results of tests given in grades 3 and 6, these elementary schools cannot be included. In addition, schools at which fewer than 10 students were enrolled in each of these grades are excluded. Private schools and federally funded schools operated by First Nations are not required to administer the EQAO tests. Since the results of these tests form the basis for this *Report Card*, only those schools that administer the EQAO tests could be included. Finally, also excluded are schools that did not generate a sufficiently large set of student data to enable the calculation of an *Overall rating out of 10*.

The exclusion of a school from the *Report Card* should not be considered a judgement of the school's effectiveness.

Note 2

The EQAO's test results, student enrollment data, and school information used or reported in this publication were provided by the Ontario Ministry of Education. The results or views expressed in this publication are those of the authors and are not those of the Ontario Ministry of Education.

Note 3

Due to continuing improvements in methodology, some historical values for indicators and overall rat-

ings may differ from those previously reported.

Note 4

In accordance with its regulations regarding the privacy of personal information, where the results in a test involved fewer than 10 students, the EQAO provided no data.

Note 5

Where there were insufficient data available with which to calculate an indicator or where a school was not in operation during a specific year, "n/a" appears in the tables.

Note 6

You can compare a school's results with these all-schools average results in the table below. Comparisons among schools are easily made on the Fraser Institute's school rankings website, <www.compareschoolrankings.org>.

Average values for all schools 2016/2017		Gr 6 enrollment: 39					
ESL (%): 7.6		Special needs (%): 23.7					
Parents' avg income: \$ n/a							
Academic Performance		2013	2014	2015	2016	2017	Trend
Gr 3 avg. level:	Reading	2.8	2.8	n/a	2.9	2.9	n/a
	Writing	2.8	2.8	n/a	2.8	2.8	n/a
	Math	2.8	2.8	n/a	2.7	2.7	n/a
Gr 6 avg. level:	Reading	2.9	2.9	n/a	2.9	3.0	n/a
	Writing	2.9	2.9	n/a	3.0	2.9	n/a
	Math	2.6	2.6	n/a	2.5	2.5	n/a
Gender gap (level):	Reading*	0.2	0.2	n/a	0.2	0.2	n/a
	Math*0.2	0.2	0.2	n/a	0.2	0.2	n/a
Tests below standard (%)		28.3	28.0	n/a	28.9	28.7	n/a
Tests not written (%)		2.6	2.5	n/a	2.7	2.8	n/a
Overall rating out of 10		6.0	6.0	n/a	6.0	6.0	n/a

* These results reflect the average size of the grade 6 gender gaps in 2016/2017. The Reading gender gap favoured females at 75.8% of schools, males at 10.0% of schools, and was even at 14.2% of schools. The Math gender gap favoured males at 41.1% of schools, females at 43.9% of schools, and was even at 15.0% schools.

Note 7

If you have questions about the *Report Card*, please contact peter.cowley@fraserinstitute.org.

How does your school stack up?

Important notes to the rankings

In this table, schools are ranked (on the left hand side of the page) in descending order (from 1 to 3048) according to their academic performance as measured by the Overall rating out of ten (shown on the right hand side of the table) for the school year 2016/2017. Each school's five-year average ranking and Overall rating out of ten are also listed. The higher the overall rating (out of 10), the higher the rank awarded to the school. Where schools tied in the overall rating, they were awarded the same rank. Where less than five years of data was available "n/a" appears in the table.

Not all the region's elementary schools are included in the tables or the ranking. In some school districts that operate middle schools or junior high schools, the elementary schools may not enroll students in grade 6. Since the Report Card is based on the results of tests given in grades 3 and 6, these elementary schools cannot be included. In addition,

schools at which fewer than 10 students were enrolled in each of these grades are excluded. Private schools and First Nations operated, federally funded schools are not required to administer the EQAO tests. Since the results of these tests form the basis for this Report Card, only those schools that administer the EQAO tests could be included. Finally, also excluded are schools that did not generate a sufficiently large set of student data to enable the calculation of an Overall rating out of 10.

The exclusion of a school from the Report Card should in no way be construed as a judgement of the school's effectiveness.

IMPORTANT: In order to get the most from the Report Card, readers should consult the complete table of results for each school of interest. By considering several years of results—rather than just a school's rank in the most recent year—readers can get a better idea of how the school is likely to perform in the future.

Appendix: Calculating the Overall rating out of 10

The *Overall rating out of 10* is intended to answer the question, “In general, how is the school doing academically compared to other schools in the *Report Card*?” The following is a simplified description of the procedure used to convert the data received from the EQAO into the *Overall rating out of 10*.

- 1 Subject by subject, the *Average levels* and *Tests below standard* values for each school were standardized by calculating Z , which is defined by:

$$Z = (X - \mu) / \sigma$$

where X is the individual school’s result, μ is the mean of the all-schools distribution of results, and σ is the standard deviation of the same all-schools distribution.

- 2 The subject-by-subject standardized data for *Tests below standard* were then aggregated to produce a weighted average standardized value. The weighting used was the number of student writers in each subject relative to the total number of student writers of the relevant tests.
- 3 This weighted average result for *Tests below standard* was then re-standardized.
- 4 The *Gender gap* values in grade-6 reading and mathematics were each calculated by determining the absolute value of the difference in the level of achievement of male students and female students at the school. The results for each subject were then standardized.
- 5 The nine standardized indicator results were then combined to produce a weighted average summary standardized score for the school. The weightings used in these calculations were: *Standardized weighted average of the standardized results of the six tests* — 50%; *Gender gap* for each of the grade-6 reading and grade-6 mathematics tests: 10%; *Tests below standard* — 30%. For schools for which there were no gender gap results, the weightings used were: *Standardized weighted average of the standardized results of the six tests* — 62.5%; *Tests below standard* — 37.5%.
- 6 This summary standardized score was re-standardized.

This standardized score was converted into an overall rating between 0 and 10 as follows:

- 7 The allowable maximum and minimum standardized scores were set at 2.2 and -3.29 respectively. Scores equal to, or greater than, 2.2 receive an overall rating of 10. This cut-off was chosen because it allows more than one school in a given year to be awarded 10 out of 10. Scores of equal to, or less than, -3.29 receive the lowest overall rating of 0. Schools with scores below -3.29 are likely to be outliers, a statistical term used to

denote members of a population that appear to have characteristics substantially different from the rest of the population. We chose, therefore, to set the minimum score so as to disregard such extreme differences.

- 8 The resulting standardized scores were converted into *Overall ratings out of 10* according to the formula:

$$OR = \mu + (\sigma * StanScore)$$

where OR is the resulting *Overall rating out of 10*, μ is the average calculated according to the formula:

$$\mu = (OR_{min} - 10 (Z_{min} / Z_{max})) / (1 - (Z_{min} / Z_{max}))$$

where σ is the standard deviation calculated according to the formula:

$$\sigma = (10 - \mu) / Z_{max}$$

and StanScore is the standardized score calculated in (6) above and adjusted as required for minimum and maximum values as noted in (7) above. As noted in (7) above, OR_{min} equals zero, Z_{min} equals -3.29 ; and Z_{max} equals 2.2 .

- 9 Finally, the derived *Overall rating out of 10* is rounded to one place of the decimal to reflect the significant number of places of the decimal in the original raw data.

Note that the *Overall rating out of 10*, based as it is on standardized scores, is a relative rating. That is, in order for a school to show improvement in its *Overall rating out of 10*, it must improve more than the average. If it improves, but at a rate less than the average, it will show a decline in its rating.

About the authors

Peter Cowley

Peter Cowley is the Vice President, Strategic Initiatives and Director of School Performance Studies at the Fraser Institute. He graduated from the University of British Columbia with a B.Comm. in 1974. Shortly thereafter, he began a long career in marketing and general management in several sectors. During his assignments in general management, process improvement was a special focus and interest. In 1994, Mr Cowley independently wrote and published *The Parent's Guide*, a popular handbook for parents of British Columbia's secondary-school students. *The Parent's Guide* web site replaced the handbook in 1995. In 1998, Mr Cowley was co-author of the Fraser Institute's *A Secondary Schools Report Card for British Columbia*, the first of the Institute's continuing series of annual reports on school performance. This was followed by *The 1999 Report Card on British Columbia's Secondary Schools, Boys, Girls, and Grades: Academic Gender Balance in British Columbia's Secondary Schools*, and *The 1999 Report Card on Alberta's High Schools*. Since then, Mr Cowley has co-authored all of the Institute's annual *Report Cards*. Annual editions now include *Report Cards* on elementary and secondary schools in British Columbia, Alberta, and Ontario, and secondary schools in Quebec.

Stephen T. Easton

Stephen T. Easton is a professor of Economics at Simon Fraser University and a Senior Scholar at the Fraser Institute. He received his A.B. from Oberlin College and his Ph.D. from the University of Chicago. Recent works published by the Fraser Institute include *Privatizing Prisons* (editor, 1998), *The Costs of Crime: Who Pays and How Much? 1998 Update* (with Paul Brantingham, 1998), and *Rating Global Economic Freedom* (editor, 1992). A co-author of *A Secondary Schools Report Card for British Columbia* (1998), *Boys, Girls, and Grades: Academic Gender Balance in British Columbia's Secondary Schools* (1999) and the *Report Card on Aboriginal Education in British Columbia* (2004), he has continued to co-author the *Report Cards* of British Columbia, Alberta, New Brunswick and, most recently, Ontario. Other publications about education include "Do We Have a Problem Yet? Women and Men in Higher Education," in David Laidler (ed.), *Renovating the Ivory Tower: Canadian Universities and the Knowledge Economy* (Toronto: C.D. Howe Institute, 2002), pp. 60–79; "Plus ça change, plus c'est la même chose" in Stephen B. Lawton, Rodney Reed, and Fons van Wieringen, *Restructuring Public Schooling* (Berlin: Springer-Verlag, 1997) and *Education in Canada: An Analysis of Elementary, Secondary and Vocational Schooling* (Vancouver: the Fraser Institute, 1988). His editorials have been carried by the *Vancouver Sun*, the *Globe and Mail*, the *National Post*, the *Ottawa Citizen*, and many other newspapers around the country.

Publishing information

Distribution

These publications are available from <<http://www.fraserinstitute.org>> in Portable Document Format (PDF) and can be read with Adobe Acrobat® 7 or Adobe Reader®, versions 7 or later. Adobe Reader® X, the most recent version, is available free of charge from Adobe Systems Inc. at <<http://get.adobe.com/reader/>>. Readers who have trouble viewing or printing our PDF files using applications from other manufacturers (e.g., Apple's Preview) should use Reader® or Acrobat®.

Purpose, funding, & independence

The Fraser Institute provides a useful public service. We report objective information about the economic and social effects of current public policies, and we offer evidence-based research and education about policy options that can improve the quality of life.

The Institute is a non-profit organization. Our activities are funded by charitable donations, unrestricted grants, ticket sales, and sponsorships from events, the licensing of products for public distribution, and the sale of publications.

All research is subject to rigorous review by external experts, and is conducted and published separately from the Institute's Board of Directors and its donors.

The opinions expressed by the authors are those of the individuals themselves, and do not necessarily reflect those of the Institute, its Board of Directors, its donors and supporters, or its staff. This publication in no way implies that the Fraser Institute, its directors, or staff are in favour of, or oppose the passage of, any bill; or that they support or oppose any particular political party or candidate.

As a healthy part of public discussion among fellow citizens who desire to improve the lives of people through better public policy, the Institute welcomes evidence-focused scrutiny of the research we publish, including verification of data sources, replication of analytical methods, and intelligent debate about the practical effects of policy recommendations.

About the Fraser Institute

Our mission is to improve the quality of life for Canadians, their families and future generations by studying, measuring and broadly communicating the effects of government policies, entrepreneurship and choice on their well-being.

Notre mission consiste à améliorer la qualité de vie des Canadiens et des générations à venir en étudiant, en mesurant et en diffusant les effets des politiques gouvernementales, de l'entrepreneuriat et des choix sur leur bien-être.

Peer review—validating the accuracy of our research

The Fraser Institute maintains a rigorous peer review process for its research. New research, major research projects, and substantively modified research conducted by the Fraser Institute are reviewed by a minimum of one internal expert and two external experts. Reviewers are expected to have a recognized expertise in the topic area being addressed. Whenever possible, external review is a blind process.

Commentaries and conference papers are reviewed by internal experts. Updates to previously reviewed research or new editions of previously reviewed research are not reviewed unless the update includes substantive or material changes in the methodology.

The review process is overseen by the directors of the Institute's research departments who are responsible for ensuring all research published by the Institute passes through the appropriate peer review. If a dispute about the recommendations of the reviewers should arise during the Institute's peer review process, the Institute has an Editorial Advisory Board, a panel of scholars from Canada, the United States, and Europe to whom it can turn for help in resolving the dispute.
